## Community Reinvestment Act Notice

Under the Federal Community Reinvestment Act (CRA), the Office of the Comptroller of the Currency (OCC) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The OCC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the OCC; and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each calendar quarter, the OCC publishes a list of the banks that are scheduled for CRA examination by the OCC for the next two quarters. This list is available through the OCC's website at OCC.gov.

You may send written comments about our performance in helping to meet community credit needs to Servbank, Attn: CRA Officer, 3201 Orchard Rd., Oswego, IL 60543; and to the Deputy Comptroller, Midwest Region, Office of the Comptroller of the Currency, 1050 17th St., Suite 1500, Denver, CO 80265. You may also submit comments electronically to the OCC at CRAComments@occ.treas.gov. Your written comments, together with any response by us, will be considered by the OCC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the OCC. You may also request from the OCC an announcement of our applications covered by the CRA filed with the OCC.

We are an affiliate of ServBanc Holdco Inc., a bank holding company. You may request from Vice President of Consumer Compliance, Federal Reserve Bank of Chicago, 230 S. LaSalle St., Chicago, IL 60604, an announcement of applications covered by the CRA filed by bank holding companies.

# INSTITUTION RATING

**INSTITUTION IS CRA RATING:** This institution is rated **Satisfactory.**

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

Allied First Bank, sb's (Allied) Community Reinvestment Act (CRA) performance under the Lending Test supports the overall rating. The following points summarize the bank's performance.

- The loan-to-deposit (LTD) ratio is reasonable given the institution's size, financial condition, and AA credit needs.
- A majority of loans are in the AA.
- The geographic distribution of loans reflects reasonable dispersion throughout the AA.
- The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among individuals of different income levels (including LMI) and businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the CRA rating.

# DESCRIPTION OF INSTITUTION

Allied is a state-charted stock savings bank headquartered in Oswego, Illinois. The bank is a subsidiary of Allied First Bancorp, Incorporated; a one-bank holding company. Allied does not have any subsidiaries or affiliates. The bank received a Satisfactory rating using Interagency Small Institution Examination Procedures at its prior FDIC performance evaluation dated March 21, 2016.

Allied operates one full service office located in Oswego, Illinois. The bank also operates 25 mortgage loan production offices located in Arizona, California, Delaware, Idaho, Illinois, Maryland, Michigan, New York, North Carolina, Ohio, and Utah. The bank offers a traditional mix of loan and deposit products to its customer base. The bank offers checking, money market, savings, certificates of deposit, and individual retirement accounts, as well as home mortgage loans, home equity, consumer, and commercial loan products. Allied offers a wide variety of home mortgage loans through portfolio and secondary market options. Secondary Market loan products include conventional and government-insured loans through Federal Housing Administration (FHA), the U.S. Department of Veteran's Affairs (VA), and the United States Department of Agriculture Rural Development (USDA). Additionally, the bank offers these loan products in a broker capacity with other mortgage lenders. Allied does not fund or make the credit decision on broker transactions; therefore, they are not reflected in the bank's performance numbers.

Specifically, the bank facilitated 26,246 loans totaling $7.4 billion in a broker capacity in 2020 and 2021.

For portfolio home mortgage loans, the bank offers a loan product (titled 'ZuZu' loan) for borrowers with bankruptcy, foreclosure, or short sale, who are not eligible for traditional home mortgage loans sold on the secondary market. This loan product is a short-term, five to seven year loan that provides eligible borrowers an opportunity to purchase a home, with the intention that they will be able to refinance into a traditional secondary market loan once the borrower has improved their credit history. The bank originated 14 ZuZu loans totaling $2.7 million in 2020 and 2021.

The bank also offers commercial loans under the Small Business Administration (SBA) lending programs. Most recently, the bank originated loans under the Paycheck Protection Program (PPP) guaranteed by the SBA, which was created in response to the Coronavirus Disease 2019 (COVID-19) pandemic in order to support small businesses. For home mortgage customers, the bank provided 43 loan modifications to borrowers experiencing financial hardship due to COVID-19.

Alternative banking services include internet and mobile banking, electronic bill pay, remote deposit, and two automated teller machines (ATM) at the main office. Allied debit card holders can also visit any Allpoint ATM network nationwide for surcharge free transactions.

As of the December 31, 2021 Consolidated Reports of Condition, Allied reported approximately $167.1 million in total assets, $69.8 million in total loans, and $137 million in total deposits. Since the previous evaluation, total assets increased 46.3 percent, and total loans increased 11.3 percent. Residential lending represents the largest segment of the loan portfolio and continues to be the bank's primary lending focus. The following table details the loan portfolio concentrations.

# DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more AAs within which its CRA performance will be evaluated. Allied designated a single AA comprised of the entire Chicago-Naperville-Evanston, IL Metropolitan Division (Chicago MD) and the Elgin, Illinois Metropolitan Division (Elgin MD). The assessment area includes eight counties: Cook, DuPage, Grundy, McHenry, and Will counties in the Chicago MD and Dekalb, Kane, and Kendall counties in the Elgin MD. Both MDs are part of the Chicago-Naperville-Elgin, Illinois-Indiana-Wisconsin Metropolitan Statistical Area (MSA) and will be considered one assessment area. The AA includes whole geographies and does not arbitrarily exclude LMI CTs.

## Economic and Demographic Data

The AA includes 1,862 CTs. Based on 2015 American Community Survey (ACS) data, the CTs reflect the following income designations: 269 low-income tracts (14.4 percent), 449 moderate-income tracts (24.1 percent), 539 middle-income tracts (28.9 percent), 590 upper-income tracts (31.7 percent), and 15 tracts (0.8 percent) where income data was not available. The following table outlines select demographic information about the AA.

| Demographic Information of the Assessment Area | | | | | | |

*(*) The NA category consists of geographies that have not been assigned an income classification.*

While 38.5 percent of the geographies located within the AA are categorized as LMI, only 22.5 percent of all owner-occupied units are located in these tracts. Low-income CTs reflect particularly

low owner-occupancy levels at 4.5 percent. This demographic reveals a challenge that lenders face in providing home mortgage financing in LMI areas. The demographics also reveal a higher percentage of rental units in LMI CTs when compared to owner-occupied housing units in those tracts. This suggests more potential for non-owner occupied lending in those areas and supports the need for affordable housing.

Low-income families account for 23.6 percent of the families in the AA, with 10.7 percent of families generating incomes below the poverty level. This demographic, in conjunction with the stark contrast between the median family income level and high median housing value, highlights challenges that home mortgage lenders may face in providing traditional financing options to this market, especially to low-income borrowers.

According to 2021 D&B data, 699,086 non-farm businesses operated in the AA. Service industries represent the largest portion of businesses at 36.9 percent; followed by retail trade (10.6 percent); finance, insurance, and real estate (10.3 percent); and construction (5.7 percent). In addition, 58.7 percent of businesses have four or fewer employees, and 90.8 percent operate from a single location. The above table indicate only 6.4 percent of the businesses are located in low-income geographies, and 17.2 percent are located in moderate-income geographies. The analysis under the Geographic Distribution criterion compares the distribution of small business loans by geography to the percentage of businesses located in each geography. This data highlights some of the challenges financial institutions may face in originating small business loans in these geographies.

Examiners used the 2020-2021 Federal Financial Institutions Examination Council (FFIEC) updated median family income level to analyze home mortgage loans under the Borrower Profile criterion. The following table contains information on the median family incomes by category.

| **Median Family Income Ranges** | | | | |

Unemployment rates in the AA decreased during the beginning of the review period, suggesting an improving economy. However, the sharp increase in the 2020 average unemployment figures for the AA, state of Illinois, and the U.S. was due to the COVID-19 pandemic and the mandatory stay-at-home order for all non-essential workers beginning in March 2020. The stay-at-home orders and temporary closures of non-essential businesses caused significant hardships for both individuals and businesses. The following table outlines the unemployment rates of the MDs, the state of Illinois, and the U.S. for the most recent years of the review period.

## Competition

The AA reflects a highly competitive market for deposits and loans. According to the FDIC Deposit Market Share data as of June 30, 2021, there were 148 financial institutions operating 1,997 offices within the AA. Of these, Allied ranked 111th maintaining 0.03 percent of the deposit market share. Large, national financial institutions operating offices within the AA hold the majority of the market share. While the top five financial institutions control 61.7 percent of deposits, 135 institutions hold less than 1 percent of the market share.

Additionally, a high level of competition in the AA exists for home mortgage loans among banks, credit unions, and non-bank mortgage lenders. According to the 2020 aggregate data, 966 lenders reported 591,542 home mortgage loan originations and purchases. Allied ranked 126th capturing 0.11 percent of the market share.

Aggregate small business lending in 2020, the most recent data available, reflects 339 lenders originated 239,271 small business loans. Allied is not required to collect or report CRA small business data and is not included in the previous numbers, but the data is presented to evidence local demand.

## Community Contact(s)

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying credit and community development needs. This information helps determine whether local financial institutions are responsive to these needs. It also helps to identify available credit opportunities.

Examiners reviewed recent community contact interviews with representatives from economic development, housing, and credit counseling organizations in the AA to identify the credit and community development needs. The contacts identified needs for affordable housing, financial education, small dollar consumer loans, and small dollar business loans.

## Credit Needs

Considering information from the community contacts and demographic and economic data, examiners determined that affordable housing and small dollar business loans represent the primary credit needs for the AA.

The AA provides numerous opportunities for involvement in community development activities. The Chicago metropolitan area has many community-based organizations, Empowerment Zones, and Tax Increment Financing Districts. The state of Illinois and local communities sponsor various programs that support affordable housing, economic development, and revitalization and stabilization programs. Further, beginning in mid-2020 due to issues related to the COVID-19 pandemic, federal stimulus funds, including funding for loans through programs such as the SBA PPP, provided additional opportunities for banks to address community development needs.

## SCOPE OF EVALUATION

### General Information

This evaluation covers the period from the previous evaluation dated March 21, 2016, to the current evaluation dated May 9, 2022. This evaluation does not include any affiliate lending, as there are no affiliates. Examiners used the Interagency Evaluation Procedures for Small Institution to evaluate Allied's CRA performance.

### Activities Reviewed

Examiners determined that the bank's major product lines are home mortgage and small business loans. This conclusion considered the business strategy and the number and dollar volume of loans originated during the evaluation period.

The record of originating home mortgage loans contributed more weight to overall conclusions due to the larger loan volume when compared to small business lending during the review period. In addition, no other loan types, such as small farm or consumer loans, represent a major product line. Therefore, such loans provided no material support for conclusions or ratings and are not presented.

Examiners reviewed all home mortgage loans reported as originated on the bank's 2020 and 2021 Home Mortgage Disclosure (HMDA) Loan Application Registers. The bank reported 817 home mortgage loans totaling $207.9 million in 2020, and 666 home mortgage loans totaling $169.6 million in 2021. Aggregate 2020 HMDA data, the most recent year for which aggregate lending data is available, and 2015 American Community Survey (ACS) data provided a standard of comparison for the bank's home mortgage lending performance. Examiners focused more on the comparison to aggregate HMDA data as it represents all loans extended by all lenders subject to the data reporting requirements of HMDA and therefore, provides a better indication of demand.

Allied originated, renewed, or purchased 160 small business loans totaling $10.7 million in 2021, which included 145 PPP loans totaling $9.0 million. Examiners reviewed a statistically valid sample of 51 small business loans totaling $3.2 million to evaluate the small business lending. Management agreed that this timeframe was representative of lending activities throughout the evaluation period. The 2021 D&B data provided a standard of comparison for the bank's small business performance.

While examiners considered both the number and dollar volume of loans, discussion of performance is limited to loans by number, as performance by dollar volume led to similar conclusions. Furthermore, the performance by number of loans is a better indicator of the number of individuals and businesses served.

## CONCLUSIONS ON PERFORMANCE CRITERIA

### LENDING TEST

Allied demonstrated reasonable performance under the Lending Test. Reasonable performance under the LTD Ratio, AA Concentration, Geographic Distribution, and Borrower Profile supports this conclusion.

#### Loan-to-Deposit Ratio

Allied's net LTD ratio is reasonable given the institution's size, financial condition, and AA credit needs. As shown in the following table, the bank maintained an average LTD ratio of 70.7 percent over the previous 24 quarters, from March 31, 2016 through December 31, 2021. Examiners compared the bank's average LTD ratio to four similarly situated institutions that operate within the AA and have similar loan concentrations. The average LTD ratios of these institutions ranged from 59.4 percent to 78.9 percent. Allied's average LTD ratio is comparable with the SSIs.

| Loan-to-Deposit (LTD) Ratio Comparison | | |

#### Assessment Area Concentration

Allied originated a majority of home mortgage and small business loans within its AA. The following table provides details on the number and dollar amount of loans inside and outside the AA.

| Lending Inside and Outside of the Assessment Area | | | | | | | | | | |

## Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AA considering the demographics, lending opportunities, and locations of the institution. The bank's reasonable home mortgage performance supports this conclusion. Examiners focused on lending penetrations in LMI CTs. Only loans originated in the AA were considered in the analyses.

### *Home Mortgage Loans*

The bank's home mortgage lending performance reflects reasonable dispersion throughout the AA. The performance was measured against aggregate data and the percentage of owner-occupied housing units (demographic data) in the AA. The following table illustrates the distribution of loans by the income level of the geography.

| Geographic Distribution of Home Mortgage Loans | | | | | | |
|---|---|---|---|---|---|---|

The bank's performance in low-income CTs was below aggregate and demographic data in 2020. Performance increased in 2021, but was still below demographic data. The available opportunities in low-income CTS are limited with only 4.5 percent of owner-occupied units located in those CTs.

In moderate-income CTs, the bank's performance was also below aggregate data in 2020 and below demographic in both years; however, performance also improved in 2021.

It should be noted that Kendall County, where the bank's office is located, contains no low- or moderate-income CTs. The vast majority of the LMI CTs are located in Cook County within the City of Chicago, which is a highly competitive market and more than 25 miles from the bank's single location in Kendall County. The nearest cluster of LMI CTs to the bank's branch is located three miles north in the city of Aurora. In a five mile radius of the bank's branch is one low-income CT and 5 moderate-income CTs. There is a high level of competition with over twenty financial institutions located either in the LMI CTs or closer to the LMI CTs than Allied's branch. Given the

limited opportunities to lend in low-income CTs, the bank's proximity to LMI CTs, and high level of competition, the geographic distribution of home mortgage loans reflects reasonable dispersion.

***Small Business Loans***

The geographic distribution of sampled small business loans reflects poor dispersion throughout the AA. Examiners compared the percentage of small business loans to the relative percentage of businesses by census tract income level (demographic data).

| Geographic Distribution of Small Business Loans | | | | | |
|---|---|---|---|---|---|
| **Tract Income Level** | **% of Businesses** | **#** | **%** | **$(000s)** | **%** |

The bank's lending in low-income CTs significantly trails the demographic. The bank's lending in moderate-income CTs also significantly trails the demographic. As previously mentioned, the nearest LMI CTs are located three miles away from the bank's branch, however small business lending opportunities are evident in LMI CTs near the branch location, as well as the larger overall AA. For example, within a 10-mile radius of the bank's branch location, there are 4,900 businesses located in LMI CTs. Overall, the bank's lending is unfavorable when compared to demographic data and illustrates poor performance. As previously mentioned, small business lending is not the bank's primary lending focus, therefore small business performance receives less weight when arriving at overall conclusions.

**Borrower Profile**

The distribution of home mortgage and small business loans to borrowers reflects reasonable penetration among individuals of different income levels and businesses of different sizes, given the demographics of the AA. The bank's reasonable home mortgage and small business performance supports this conclusion. Examiners focused on the percentage of home mortgage loans to LMI

borrowers and small business loans to operations with gross annual revenues of $1 million or less. Only loans originated in the AA were considered in the analyses.

### *Home Mortgage Loans*

Overall, the distribution of borrowers reflects reasonable penetration among individuals of different income levels, including LMI borrowers. The following table reflects the distribution of home mortgage loans by borrower income level.

| Distribution of Home Mortgage Loans by Borrower Income Level | | | | | | |

The bank's lending to low-income borrowers trails aggregate data in 2020, and trails the demographic data in both years, although performance increased in 2021. It is important to consider that 10.7 percent of low-income families generate incomes below the poverty level. Families with incomes below the poverty levels are likely to face challenges in acquiring home mortgage loans due to their reduced capacity to afford a home. The bank's performance is also affected by the percentage of low-income families residing in the AA, coupled with the high median home value in this area. The fact that aggregate performance also trails the low-income borrower demographic supports the challenges that face lenders when serving this market.

The bank's lending to moderate-income borrowers is in line with aggregate data in 2020. 2021 performance increased and exceeds demographic data. Considering all these factors, Allied's home mortgage lending to LMI borrowers is reasonable.

***Small Business Loans***

The distribution of loans to borrowers reflects reasonable penetration among businesses of different sizes. Examiners focused on the percentage of small business loans to operations with revenues of $1 million or less. Performance is measured against the percentage of businesses with revenues of $1 million or less (demographic data) in the AA. The following table details the distribution of sampled small business loans by gross revenue level.

| Distribution of Small Business Loans by Gross Annual Revenue Category | | | | | |
|---|---|---|---|---|---|
| **Gross Revenue Level** | **% of Businesses** | **#** | **%** | **$(000s)** | **%** |

In 2021, the PPP loans comprised a significant portion of small business loans, with 87 percent without revenue information. Reported revenue was not available for most PPP loans, as the program did not require the collection of revenue information. Therefore, examiners could not conduct a meaningful analysis of lending to businesses of different sizes for 2021. Instead, examiners evaluated the PPP loans using loan size as a proxy for those with revenues not available. A substantial majority of PPP loans, by number, had loan sizes of $100,000 or less, indicating that the bank is helping to serve the needs of small businesses in the AA. Examiners also noted that the bank made a majority of loans with available revenue information to businesses with revenues of $1 million or less. The following table shows the loan size of PPP loans sampled in 2021.

| Distribution of PPP Loans by Loan Size | | | | |
|---|---|---|---|---|

**Response to Complaints**

Allied did not receive any CRA-related complaints since the prior evaluation; therefore, this criterion did not affect the Lending Test.

## DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's CRA rating.

# APPENDICES

# SMALL BANK PERFORMANCE CRITERIA

**Lending Test**

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
3) The geographic distribution of the bank's loans;
4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

# GLOSSARY

**Aggregate Lending:** The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**American Community Survey (ACS):** A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

**Area Median Income:** The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

**Assessment Area:** A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

**Census Tract:** A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

**Combined Statistical Area (CSA):** A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

**Consumer Loan(s):** A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

**Core Based Statistical Area (CBSA):** The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

**Family:** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

**FFIEC-Estimated Income Data:** The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

**Full-Scope Review:** A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

**Geography:** A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

**Home Mortgage Disclosure Act (HMDA):** The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

**Home Mortgage Loans:** Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

**Housing Unit:** Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

**Limited-Scope Review:** A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.
Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

**Low-Income:** Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

**Market Share:** The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**Median Income:** The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

**Metropolitan Division (MD):** A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary

counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

**Metropolitan Statistical Area (MSA):** CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

**Middle-Income:** Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

**Moderate-Income:** Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

**Multi-family:** Refers to a residential structure that contains five or more units.

**Nonmetropolitan Area (**also known as **non-MSA):** All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

**Owner-Occupied Units:** Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

**Rated Area:** A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

**Rural Area:** Territories, populations, and housing units that are not classified as urban.

**Small Business Loan:** A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

**Small Farm Loan:** A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

**Upper-Income:** Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

**Urban Area:** All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
